What is a Land Information Memorandum (LIM)?

A Land Information Memorandum (LIM) is a report provided by Council at your request providing information from its records on matters affecting the land and any buildings on the land, issued under the Local Government Official Information and Meetings Amendments (No 2) Act 1991.

Who requires a LIM?

- Any property purchasers, vendors, prospective mortgagees and other persons intending to deal with a property, are recommended to first obtain a LIM.
- A LIM will tell you what the Council knows about the property or any issues which may affect it. Knowledge of this information may be vital prior to a property sale being finalised.
- When selling a property you have a responsibility to disclose important information about the property.

The following information will be included in the LIM

- Any special features of the land known to the Council including potential erosion, falling debris, sinking, slipping, silting or build up of land, flooding or likely hazardous pollutants.
- Private and public stormwater, water and sewerage drains.
- Rating valuation of the property and rates levied for the current year, including water rates where applicable.
- Zoning of the property, and any designated land use which may affect the property.
- Any information which has been submitted to Council by a statutory organisation or network utility operator (eg. suppliers of gas and power) related to the site.
- Any certificates issued by a building certifier.
- Any other information concerning the land which the Council considers relevant.

How long does a LIM take to process?

Providing all the information is supplied with your application, the LIM will be prepared by the Council within either 2 or 10 working days and returned to you as per your instructions on the application on this form.
