

Thames-Coromandel District Council
Thames Ward
Electing 3 Councillors

Robyn SINCLAIR

My principal place of residence is in the Thames Ward area.

Living in Thames has made me passionate about this special community. I want to see our towns and district be attractive places to live, work, do business, and spend leisure time. Our families from the youngest to the oldest are important to me; the needs of everyone must be considered in making successful community plans.

I am a keen commuter cyclist and Thames Connector user; making both active and public transport safe and accessible would be high on the list of things that I would like to achieve for the whole district. Both of these would help kickstart planning for a sustainable and carbon limited future.

I work for Age Concern, where my position has me travelling the whole of the Thames-Coromandel district, so I have insights into the wider community. I sit on the Thames Community Centre board and have held various positions in T3, including chairperson.
