

HAZARDS IN TARARU

STORMS AND FLOODS/SLIPS

- Storms and severe weather can happen at any time of the year, even in the middle of summer.
- This includes strong winds, heavy rain, and thunderstorms. Storms often bring localised flooding and they can block access to or from your home or bach.
- **WHAT TO DO**
- Charge all devices while you still have power.
- Secure anything that could cause damage in strong winds (such as outdoor furniture).
- Stay inside and bring your pets inside. If you have to leave, take them with you.
- Take measures to reduce potential flood damage and make sure your insurance policy covers you for flood damage.
- Don't drive through flood waters – your car is not a submarine.
- Don't walk through flood waters as they could be contaminated with raw sewerage or contain dangerous debris.
- Check the tide times. Flooding often happens at high tide and recedes at low tide.
- Listen to the radio and follow the instructions of emergency services.
- Check metService.com for real-time updates.
- Check TCDC's Facebook page to see what other people around the Coromandel are reporting.
- Have a household emergency plan.

EARTHQUAKE AND TSUNAMI

- An earthquake could cause a tsunami. Know the natural warning signs:
- » Experience an earthquake that makes it hard to stand up or lasts longer than a minute
- » Notice sudden tidal changes at the beach or harbour
- » Hear loud or unusual sounds from the ocean.
- **WHAT TO DO**
- Drop, Cover, Hold – during the earthquake
- If you live in a coastal area, evacuate immediately as far up or inland as you can. Do not wait for an official warning.
- Wait for the official 'all clear'
- Have an emergency plan and go bag ready
- Listen to the local radio and follow instructions of Emergency Services
- Download the Red Cross Hazards App
- A distant source tsunami allows ample time to notify and prepare

FIRE

- Fire can start from natural causes like floods and earthquakes (causing electrical shorts), volcanic activity, lightning strikes and high wind. Low rainfall and drought can also cause an increase in the number of fires started.
- **WHAT TO DO**
- Have an escape plan.
- Decide WHEN you need to escape.
- Make sure your home has smoke alarms.
- Apply for a permit if you want to light open fires in a restricted season.
- Minimise wildfire risk by maintaining "3m" of cleared space, no trees, around your home.
- Drop to the floor and get out of the building or away from the fire.
- Call 111.

You may need to take care of yourself before help arrives visit www.getready.govt.nz to help you get ready.

AM I PREPARED?

Do I have an emergency plan for the hazards in my area?
getready.govt.nz

Do I have 3 days of emergency supplies? (including medicine)

Do I have an evacuation plan?

- Is my Go Bag packed?
- Do I require assistance – Identify a friend or neighbour that can help you.

Tsunami Evacuation

– walk where possible –

IF IT'S LONG OR STRONG **GET GONE**
IF IT'S FAR AWAY **YOU'VE GOT ALL DAY**

WHERE WILL YOU WALK?

The white shaded areas are the safe zones (20m or more above sea level). If you are unable to get to the Safe Zone, aim for the areas not shaded blue, these have a lesser risk of inundation.

Follow the tsunami evacuation signs when you notice the natural warnings or are officially instructed to evacuate.

SAFE ZONE

Rennie Street

Victoria Street

Robert Street

Tararu Road
